PROFESSIONAL SUMMARY

Software Engineering student at VIT-AP with experience in Java, Python, SQL, React, Flask, and Machine Learning. Built full-stack web applications and AI-powered projects using TensorFlow and OpenCV. Passionate about software development, problem solving, and building scalable applications.

EDUCATION

Vellore Institute of Technology – AP (VIT-AP University)

Amaravati, AP

Integrated M.Tech in Software Engineering

Nov 2022 – Jul 2027

CGPA: 8.04 / 10.0

Narayana Junior College

Chirala, AP

Intermediate – Mathematics, Physics, Chemistry (MPC)

2020 – 2022

Percentage: 92.0%

Sundeeep English Medium High School

Chirala, AP

Secondary School Certificate (SSC)

2020

Percentage: 99.6%

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Web Technologies: HTML, CSS, JavaScript, React, Flask

Machine Learning: TensorFlow, OpenCV

Databases: MySQL

Tools: Git, GitHub, VS Code, Oracle Cloud Infrastructure (OCI)

Software Engineering: SDLC, Agile Methodology

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Operating Systems • Computer Networks • Software Engineering

PROJECTS

Accurate Disease Prediction System

Jan 2024 – Dec 2024

- Developed a Machine Learning-based Disease Prediction System using Decision Tree, Random Forest, Gaussian Naive Bayes, and Soft Voting Ensemble models.
- Processed a medical dataset containing 132 symptom features to classify 40+ diseases.
- Achieved 93.23% accuracy using Random Forest and 93.13% accuracy using Gaussian Naive Bayes and Soft Voting Ensemble for disease prediction.
- Evaluated model performance using Accuracy, Precision, Recall, F1-Score, and Confusion Matrix to compare classification algorithms.
- Designed a modular Python application for data preprocessing, model training, prediction, and evaluation.

Fabric Marketplace with AI-Based Fabric Defect Detection

2024

- Developed a Flask-based web application supporting Admin, Seller, and Buyer roles.
- Integrated a CNN model using TensorFlow, achieving **94% accuracy** in automated fabric defect detection.
- Applied OpenCV for image preprocessing, resizing, normalization, and feature extraction.
- Designed and managed a MySQL relational database for user authentication, product management, and marketplace operations.
- Implemented secure authentication, CRUD operations, and end-to-end marketplace workflows for buyers and sellers.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate** – Oracle, 2025
- SQL and Relational Databases 101 (DB0101EN)** – IBM SkillsBuild, February 2026
- JavaScript Essentials 1** – Cisco Networking Academy
- AI Tools & ChatGPT Workshop** – be10x

CODING PROFILES

LeetCode: https://leetcode.com/u/manikanta_8999/ **GitHub:** <https://github.com/Mani-KVS>

- Solved 50+ problems on LeetCode
- Solved 70+ problems on CodeChef

KEY STRENGTHS

- Strong problem-solving and analytical skills.
- Hands-on experience developing full-stack and machine learning applications.
- Quick learner with strong interest in Software Development and Java technologies.
- Excellent teamwork, communication, and debugging skills.
